

CLOSE THE WAIHOPAI SPYBASE NOW!

Much like the Cuckoo, (and other parasites), the American War Eagle lays its eggs in the nests of its 'friends'...

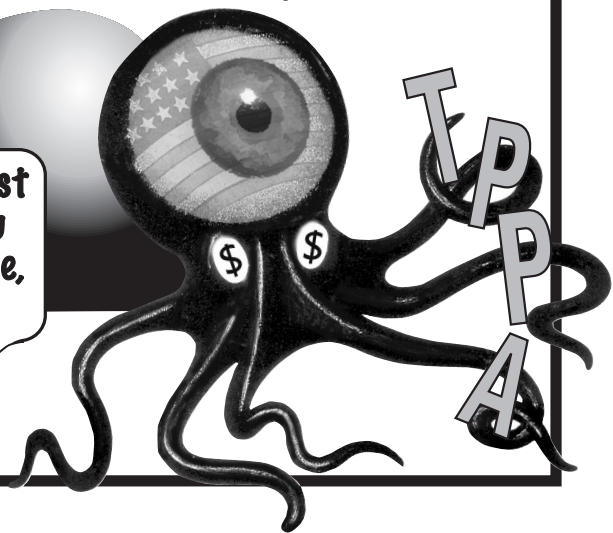

Who raise them willingly...

...and then they hatch!!

They don't just hear it thru the grapevine, ya know...

The GCSB and its Waihopai spybase illegally spy on New Zealanders.

Waihopai does not operate in the national interests of New Zealand or our neighbours.

It is a foreign spybase on NZ soil which directly involves us in American wars and operations to control international politics and trade.

Waihopai must be closed.
