

Aotearoa New Zealand CAMPAIGN TO STOP KILLER ROBOTS

The Campaign to Stop Killer Robots is an international coalition of NGOs working for a pre-emptive comprehensive ban on the development, production and use of fully autonomous weapon systems (killer robots) - robotic weapons that have the ability to select targets and attack on their own, without any human intervention. The development of killer robots is an unprecedented threat to humanity, and we need your support for a ban.

Aotearoa New Zealand Campaign to Stop Killer Robots, PO Box 9314, Wellington ~ stopkillerrobots@xtra.co.nz ~ converge.org.nz/pma/robots.htm ~
